RECENT RECOMMENDATIONS

Ana Sol Ordoñez — CEO & Founder at Zink (Freelance client)

“Ben has both conceptual creativity for new ideas and the skills to craft fine details. He created a pixel-perfect prototype with polished visuals that incorporated the features we were looking for in a mobile app. He definitely went above and beyond what was asked of him and clearly takes great pride in his craftsmanship and work. ...I'll keep him in mind for future projects”

Shamrina Oshana — Brand Manager at Slingshot Foods (Freelance client)

“Ben is a creative and imaginative designer. He lights up when presented with problems, talking through goals, and finding solutions. He is a visual story teller and produces wonderful work.”

Caitlin Thompson — Founder & CEO at EnttheoZen (Freelance client)

“Ben does very good work creating clean-looking and aesthetic webpage design. He has an artistic eye, but also a talent for building sites that are meant to create sales and conversions. He also was very helpful at providing directions and guidance on specific tasks via printscreen images which helped tremendously. I would highly recommend Ben for your webpage projects!”
